

Certified Information Privacy Professional/Europe (CIPP/E)

What is Certified Information Privacy Professional/Europe (CIPP/E)?

Certified Information Privacy Professional (CIPP) is considered one of the main standards in Data protection. The certification was developed by International Association of Privacy Professionals (IAPP) – the world's largest privacy association.

The preparation course provides participants with a clear picture of essential privacy concepts and data protection principals, legal requirements for dealing with transferring data. Participants will have the opportunity to acquire the knowledge that has value and can be used in everyday activities.

Who is it for?

The training programme is intended for data protection experts at all levels in all lines of service, lawyers and human capital officers.

Working with personal data requires specific and very often diverse skills and knowledge. Therefore, it is very important that experts have the relevant knowledge to other operational challenges.
