

The requirements of the new international standard **ISO 45001:2018**

Occupational Health & Safety management system

Live Online Seminar at PwC's Academy Bulgaria

20th & 21st May 2020

PwC's Academy

ISO 45001: 2018 is the new international standard for occupational health and safety, which will completely replace the British OHSAS 18001. **The deadline for transition to ISO 45001 is March 12, 2021.** After that date, certificates under OHSAS 18001 become invalid. The purpose of this training is to clarify the changes introduced by ISO 45001: 2018 and the approach to implementing them.

Topics

- Main differences between ISO 45001 and OHSAS 18001
- What is not necessary any more
- The new structure of the standard
- Context of the organization
- Risks and opportunities
- The transition steps to ISO 45001

Who is it for?

- HR Specialists
- Health and Safety Managers
- Internal Auditors
- Leadership representatives
- Consultants

Benefits for the participants

After the training you will be able to:

- What documentation is required by ISO 45001:2018
- Learn how to easily make the transition to the new standard
- Build an approach towards the challenges you'll face with ISO 45001:2018

Lecturer:

Lina Shtarbanova

My main activity is consultant in the development and implementation of management systems. I also provide expert assistance in certification and control audits of certification bodies on good distribution and manufacturing practices of medicinal products and active substances. I advise medical laboratories aiming for accreditation in accordance with ISO 15189. In addition, I am an IRCA Certified Lead Auditor in ISO 9001: 2015, ISO 14001:2015 and ISO 45001:2018.

Since the publication of the new standard for occupational health and safety management systems, I have worked on numerous projects in private and municipal companies. Most of them were related to the transition from OHSAS 18001 to ISO 45001 and were successful. All clients underwent a certification audit with no discrepancies found. I often train in-house auditors of integrated management systems.
