

# Online Accelerated PMP PREP Course

This intensive 8-day course is designed to completely prepare you for the PMP exam in a fun and effective manner - with heavily reduced studying after class!

In addition to unique games and activities, there are exercises and techniques designed specifically to increase both learning and knowledge retention, giving students not only the knowledge they need to pass the exam in only 8 days, but also to become a better project manager - without rote memorisation.

*PwC's Academy*

## Why take this course?

Let's get right to the point. Imagine what the class designed by Rita Mulcahy, PMP, one of the world's experts on the PMP® exam, might be like. Why should you take our Accelerated prep class?

### Here are 10 reasons:

1. In many cases, there is NO study required after this class. Students are ready to sit for the exam on the very next day.
2. Whereas others spend days walking you through the inputs and outputs of the PMBOK® Guide, we will show you how to understand them in only minutes. Then watch how you immediately get 80 to 100 percent of sample questions right.
3. Rather than making you endure days of memorisation, we help you understand and learn.
4. You will take computerised exam simulations in class, SO YOU WILL KNOW you are ready to sit for the exam - and you will have evidence to prove it.
5. You will utilise the best-selling materials available to pass the PMP® exam—including Rita's book, PMP® Exam Prep. You will also gain access to study materials not otherwise available to the general public.
6. You will learn topics that are on the exam but are NOT in the PMBOK® Guide, as well as, reasons why others fail the exam and how to avoid these critical mistakes.
7. You will learn to be a better project manager in the process of studying for the exam.
8. You will understand how to analyse and answer the most difficult questions on the exam, and quickly tackle situational questions that seemingly have more than one correct answer.
9. You will discover what you know, as well as what you do NOT know, and receive help filling your knowledge gaps.
10. You will learn the "Boil it Down" trick, the "Backwards" trick, the "Inputs and Outputs" trick, the "Translation" trick and many, many others developed from over 14 years of helping people pass the exam.

**Course materials** will include Rita Mulcahy's PMP® Exam Prep book, PM FASTrack® exam simulation software, and Hot Topics Flashcards, plus additional materials not available to the public. The book includes hundreds of pages of detailed review materials including coverage of material not in the PMBOK®, sample exams, exercises and activities.

Note: these materials are included as part of the course, and you will not receive a discount on your course registration if you already own any or all of them.

## What to expect during the class?

This training is ONLINE.

There will be homework each day—but on the bright side, you should NOT expect forced changes to your lifestyle, or boredom of any kind. Expect to work individually and in groups, to work with games and exercises, and to participate to the fullest. Have fun, learn, and know that you are going to pass the exam!

## Course learning objectives

At the end of this course you will be able to:

- Pass the PMP® Exam offered by the Project Management Institute, with full confidence,
- Identify gaps in your knowledge that may hurt you on the exam,
- Be more comfortable with the types of questions you will see on the exam,
- Use tips to pass the exam that have been used successfully by thousands of people,
- Utilise your personalised test taking strategy,
- Apply project management techniques useful in the real world,
- Be a better project manager.
