

The Certified Internal Auditor®

The Certified Internal Auditor® is the only globally accepted certification for internal auditors by which individuals demonstrate their competency and professionalism in the internal auditing field.

What we offer:

- Unique crash course: PwC's CIA course focuses on practical exam techniques and tips, teaching participants how to prepare and sit the CIA exam in the most efficient way.
- Quality course in English: participants will gain comprehensive vocabulary from the internal audit area, useful in the international business environment and in the CIA exam.
- Quality Tuition: During this training participants can benefit from PwC's Academy wide network of qualified tutors and internal audit experts who are bringing the latest knowledge and practical experience and examples. The CIA tutor for this course has more than 20 years experience in teaching and preparing students to sit and pass the CIA exam with good pass rates.
- We introduce our CIA programme with a competitive price.
- Quality Certification: participants will obtain PwC Certification of completion after the training.

This CIA exam techniques crash course aims to prepare students for sitting the CIA exam 3, whilst also exploring internal audit related topics such as finance, accounting and economics basics.

Who should attend:

The Certified Internal Auditor course is suitable for participants who are long-term internal auditors with the aim to accelerate their careers, as well as to raise their professionalism to a higher level.

The training is also suitable for managers, who would like to gain exposure and expertise in organisational risk management.
