

## EU Commission Innovation Fund

# Grants for large-scale highly innovative projects with significant potential to reduce greenhouse gas emissions

**Grant amount:** Up to 60% of relevant project costs. The total capital expenditure for the project must exceed EUR 7.5 m. and can be much higher.

**Eligible projects:** Projects **demonstrating highly innovative technologies, processes or products**, that are sufficiently mature and have a significant potential to reduce greenhouse gas emissions like:

- activities that support **innovation in low-carbon technologies and processes**, including environmentally safe carbon capture and utilisation that contributes substantially to mitigating climate change, as well as products substituting carbon intensive ones;
- activities that help stimulate the construction and operation of projects that aim at the **environmentally safe capture and geological storage of CO<sub>2</sub>**;
- activities that help stimulate the **construction and operation of innovative renewable energy and energy storage technologies**

**Eligible applicants:** Individual private or public entities and consortia of several private and/or public entities.

## Project evaluation criteria:

- Greenhouse gas emission avoidance potential;
- Degree of innovation;
- Project maturity;
- Scalability;
- Cost efficiency.

Deadline for submission of application: **3 March 2022**
