

EU Commission Innovation Fund

Grants for Small-scale highly-innovative projects with significant potential to reduce greenhouse gas emissions

Grant amount: Up to 60% of relevant project costs. The total capital expenditure for the project must be between EUR 2.5 m. and EUR 7.5 m.

Eligible projects: Projects demonstrating highly innovative technologies, processes or products, that are sufficiently mature and have a significant potential to reduce greenhouse gas emissions like:

- **activities that support innovation in low-carbon technologies and processes**, including environmentally safe carbon capture and utilisation that contributes substantially to mitigating climate change, as well as substitute products;
- **activities that help stimulate the construction and operation of projects that aim at the environmentally safe capture and geological storage of CO₂**;
- **activities that help stimulate the construction and operation of innovative renewable energy and energy storage technologies**

Eligible applicants: Individual private or public entities and consortia of several private and/or public entities.

Project evaluation criteria:

- Greenhouse gas emission avoidance potential;
- Degree of innovation;
- Project maturity (technical, financial, operational);
- Scalability;
- Cost efficiency.
